

EARN 50% MORE ON REBATES

Stack your savings with our Rebate Ramp Up

The Commercial Energy Efficiency Program offers money-saving rebates on upgrades to energy-efficient equipment like lighting, HVAC systems and water heaters. With our new Rebate Ramp Up offer, you can now earn 50% more, in addition to the standard available rebates for your projects.

Ramp up your savings with 50% more rebates.

The Rebate Ramp Up will be applied on top of your total qualifying rebate amount. This year, we're raising the maximum rebate cap so you can save even more. Now is the perfect time for your business to upgrade to energy-saving equipment that can help lower your annual energy costs. Rebate applications must be submitted by June 30, 2024 and projects must be completed by November 30, 2024 to qualify.

Learn more and submit your application at georgiapower.com/RampUp.

QUALIFYING EQUIPMENT INCLUDES:

- ▶ Existing building lighting
- ▶ New construction lighting
- ▶ HVAC
- ▶ Food service and grocery
- ▶ Pumps
- ▶ Business equipment

Bringing the savings to life

As an example of how much you could save, let's imagine a 20-story commercial building replaced 1,500 fluorescent fixtures with DLC-certified LED fixtures. With the rebate at \$25 per fixture, the additional 50% rebate would add \$18,750 in extra rebates.

Total project cost	\$100,000
Standard rebate for 1,500 DLC-certified LED fixtures	\$37,500
Additional 50% rebate for 2024 project	\$18,750
Total rebates	\$56,250
Total project cost after savings	\$43,750

Rebate eligibility details:

- ▶ Distributor Instant Rebates and Retail Instant Rebates application channels are not eligible for the rebate increase.
- ▶ Applications must be submitted through the Commercial Rebate Application Center by June 30, 2024.
- ▶ Rebate payments will be issued once the project installation is completed and all close-out documents are received. Projects must be complete by November 30, 2024 to qualify.
- ▶ Application and close-out documents received after the offer deadline will be processed based on the existing rebate standards.
- ▶ The rebate increase is available on a first-come, first-serve basis.
- ▶ The rebate increase may be discontinued at any point, dependent on available funds.

Save now and save later with new energy-efficient upgrades for your business. For more information, and to submit your application, visit georgiapower.com/RampUp today.
