**Re: Request for Closure Extension
Georgia Power Company – Plant Hammond Ash Pond 3 (AP-3)
Floyd County**

Dear Mr. Cook:

Georgia Power Company (GPC) placed the Notification of Intent to Initiate Closure (NOI) for Plant Hammond AP-3 in the facility's operating record on December 7, 2015. The NOI was subsequently placed on GPC's public website, and a notification was provided to the Georgia Environmental Protection Division (EPD) in accordance with Solid Waste Management Rule 391-3-4-.10(8).

Solid Waste Management Rule 391-3-4-.10(7) requires closure of CCR units to be conducted in accordance with 40 CFR 257.102. Specifically, regarding closure timeframes, 40 CFR 257.102 includes the requirement that existing and new CCR surface impoundments and any lateral expansion of a CCR surface impoundment must complete closure within five years of commencing closure activities. As anticipated in 40 CFR 257.102, extension of closure timeframes may be needed and can be extended upon demonstration that completion of all activities was not feasible within the designated timeframes.

Closure construction activities were completed for the CCR unit, and the closure construction certification report was submitted to EPD on December 13, 2018. The EPD Solid Waste Management Program is currently reviewing the certification report and the CCR unit permit application. In accordance with 40 CFR 257.102(f)(2)(ii), an extension of two years is requested. This additional time is required to coordinate with and obtain the necessary approvals and permit from EPD. 40 CFR 257.102(f)(2)(i). This demonstration for extension of closure timeframe will be placed in the facility operating record.

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this demonstration and all attached documents, and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
