

ELECTRIC SERVICE TARIFF:

**AGRICULTURAL PROCESS SERVICE RATE
SCHEDULE: "APS-4"**

PAGE	EFFECTIVE DATE	REVISION	PAGE NO.
1 of 2	With Bills Rendered for the Billing Month of April, 2008	Original	8.40

AVAILABILITY:

Throughout the Company's service area from existing lines of adequate capacity.

APPLICABILITY:

Applicable to establishments that provide processing or storage services of agricultural products to individually owned farm operations. For the purposes of this rate schedule, processing or storage service means that ownership of the product before, during, and immediately after processing or storage remains with the individually owned farm operation, and the processing or storage service provider is paid on a fee per unit basis. Individually owned farm operations that process or store their own product also qualify. Examples of types of operations that could qualify are cotton gins and vegetable or fruit storage facilities. More than fifty percent (50%) of the processing service provider's business must meet these criteria in order to qualify. The customer will be responsible to the Company for any additional cost of installing and removing any equipment required to control, meter or deliver this service. This electric service shall be delivered at one point, at one standard voltage and metered at or compensated to that voltage.
