

July 6, 2026

Dear Neighbor,

Thank you for your patience as we continue to work in your area. As part of the ongoing Hills Bridge – Speedway project in your area, we want to share a brief update on upcoming tree removal activities near you.

Beginning early July, crews will begin tree clearing along the project corridor. This work is necessary to prepare the area for future construction and to help ensure the safe and reliable operation of the electric system. In August, tree clearing will take place along Lower Woolsey Road along the planned utility right-of-way.

This work is expected to occur on weekdays, with crews working during normal daytime hours. All activities are subject to change based on weather and field conditions. We will work to minimize disruption, and crews will follow all applicable environmental and safety guidelines throughout the clearing process.

We understand that tree clearing can be a noticeable change in your area, and we appreciate your patience as we continue this important work. Our team is committed to keeping the community informed as the project progresses. If you have questions or concerns, please contact us using the information below.

Sincerely,

Georgia Power Stakeholder Engagement Team
