

2020-2022 Commercial Energy Efficiency Program Project Submission Instructions

1. Application Submission

Georgia Power Company (GPC) rebate application portal and program requirements can be found at georgiapower.com/commercialsavings.

The rebate application and supporting documentation can be submitted at georgiapower.com/rebateapp.

Supporting documentation includes:

- Equipment specification sheets
- Energy calculations for each Custom energy efficiency measure, if applicable
- IRS W-9 form
- Payee Designation Form, if applicable

2. Incentive Application

Project pre-approval requirement has been waived until further notice. Applicants are encouraged to submit an application with the supporting documentation for project evaluation. Applicants should confirm the timeline and project scope provided in the rebate application. CLEAResult will review the application for eligibility and perform preliminary rebate and energy savings calculations. Following review, if eligible, you will receive an email confirming the estimated rebate(s). Please review our rebate Terms and Conditions for more details.

3. Pre-Inspection

All projects and equipment are subjected to program pre-conditions and requirements. CLEAResult may need to verify existing equipment and conditions. New construction projects must have construction drawings and other supporting documents submitted.

4. Project Update And Completion

Customer and Trade Ally/Contractor implements project & notifies CLEAResult of any scope changes, if applicable, and upon project completion.

Upon project completion Customer and Trade Ally/Contractor must provide invoice and all remaining supporting documents to CLEAResult.

5. Post-Inspection

CLEAResult verifies new equipment installation and finalizes rebate amount and energy savings.

6. Incentive Check

Georgia Power issues rebate as a live check to the Customer or Designated Payee in approximately 4-6 weeks.

Learn more about our programs and get started today by visiting georgiapower.com/commercialsavings or calling 1-855-762-6732.

CLEAResult is a contractor and program implementer for Georgia Power.
