

2020–2022 End of Cycle Information

This year marks the end of our Custom Savings and Prescriptive Programs' current three-year cycle. Please note these important details as we transition to the 2023-2025 program cycle:

- To be considered for Custom Savings and Prescriptive rebates under the current program cycle, all required documentation for completed projects must be uploaded into the rebate portal within 60 days of installation or by November 25, 2022, whichever comes first.
- Projects completed or applied for online between November 26 and December 31, 2022, will be placed in reserve for the 2023-2025 program cycle and evaluated based on the new cycle requirements. Preapproval for any projects is not guaranteed.
- The rebate application portal will be temporarily shut down at 11:59 p.m. EST on December 31, 2022. Any open applications that are not submitted before this deadline will be deleted. Submitted applications will be retained for consideration and preapproval in the 2023 programs.

Program requirements for 2023 will be communicated as soon as they are available.

If you need additional assistance or have any questions, feel free to contact us at 1-855-762-6732 or email commercialsavings@southernco.com.

Thank you for your interest in Georgia Power's Custom Savings and Prescriptive Programs. We look forward to helping you use energy efficiently.
