

Getting Started with your AC Tune-up

1. Choose a contractor

Pick a qualified Georgia Power CoolSaver Trade Ally in your area or a contractor of your choosing to perform the AC tune-up.*

2. Schedule your tune-up

Once you identify a qualified contractor, please contact them to schedule a tune-up. This expert will:

- Measure indoor airflow and correct if needed
- Clean major components
- Adjust refrigerant levels, if needed, and more . . .

3. Get your rebate

Earn an instant rebate directly on the service invoice once the tune-up is complete, or pay the invoice in full and Georgia Power will send you a rebate check within 6 weeks of final approval.

4. Enjoy your savings

Georgia Power will send you a certificate of completion.

Eligibility

- Rebates are available only to Georgia Power commercial customers.
- Cooling system must be operable, at least one year old and no qualified tune-up within the past five years.
- CoolSaver AC Tune-up rebates will not exceed 50% of the total tune-up costs, and may be subject to additional program caps.

HAVE QUESTIONS ABOUT COOLSAVER AC TUNE-UP REBATES?
