

Electric Transportation

Make Ready Application Checklist

Business Information

- Georgia Power account number
- Business Name
- Site Address, City, Zip Code
- Contact Name & Title
- Contact email address

Type of Charger

- Is this an existing property or new construction?
- If new, what is the current stage of construction?
- What type of property/facility is this?
- How many electric vehicle charging ports are currently installed at this facility?
- Where would you like these chargers to be installed (Surface lot, Parking Deck, Inside Warehouse)?

Charger Requirements

- How will the chargers be used (Public, Employee, Customers, Fleet, etc.)?
- Do you plan to make the chargers accessible to the general public?
- Are you installing chargers for fleet vehicles that serve the general public?
- How many chargers do you plan to install?
- Are you installing any DC Fast chargers?

Electrical Assessment

- Has a certified electrician performed a site assessment to check the electrical panel capacity?
- Is the existing panel capacity adequate to support the amount of chargers being installed?
- Have you chosen an electrician to install the chargers?
- If yes, has the electrician provided a proposal to perform the installation?
