

2020 Charitable Giving

Georgia Power is committed to being a good corporate citizen. In 2020, with a pandemic, social unrest, and calls for racial equity as a backdrop, Georgia Power, its employees and retirees continued volunteering and financially supporting our communities at a time when they needed it most.

Georgia Power and the Georgia Power Foundation are committed to supporting and implementing programs that will provide a sustained path to better the lives of all citizens. We are not alone in our efforts to ensure the future of Georgia, but all of us – together – can be **Here for Georgia: Meeting Challenges Together**, today and for years to come. Since its inception in 1986, the Georgia Power Foundation has invested over \$208 million to empowering education, the environment, and communities throughout the state.

emPowering the future
