

# Allen Reaves

Senior Vice President and Senior Production Officer | East Production Group  
Southern Company | Georgia Power

Allen Reaves is senior vice president and senior production officer of Southern Company Operations' East Production Group. In this position, he manages Georgia Power's approximately 13,500 megawatts of coal, natural gas, hydro, solar and distributed generation resources. He also serves on the company's management council.

Prior to this role, Reaves was vice president of generation and senior production officer for Mississippi Power. He began his Southern Company career at Alabama Power in 1980 as a cooperative education student. He has since held various engineering leadership positions within the Southern Company system, including site manager for Southern Power's Plant Franklin, project director at Southern Electric International's Trinidad and Tobago company, and plant manager at Mississippi Power's Plant Daniel and Savannah Electric's Plant McIntosh.

Reaves has served in leadership roles for several community organizations, including United Way, Junior Achievement, Red Cross, American Chamber of Commerce, Boy Scouts of America and the National Management Association. He also served as chair for the Pascagoula River Audubon Advisory Board.

He earned a bachelor's degree in mechanical engineering from the University of Alabama at Birmingham.
