

Allen Reaves

Senior Vice President and Senior Production Officer, East Production Group
Southern Company • Georgia Power

Allen Reaves is senior vice president and senior production officer of Southern Company Operations' East Production Group. In this position, he manages Georgia Power's approximately 12,227 megawatts of coal, natural gas and solar generating capacity. He also serves on the company's Management Council.

Prior to this role, Reaves was vice president of generation and senior production officer for Mississippi Power.

Reaves joined Alabama Power in 1980 as a cooperative education student. He has since held various engineering leadership positions within the Southern Company system, including site manager for Southern Power's Plant Franklin,

project director at Southern Electric International's Trinidad and Tobago Company, and plant manager at Mississippi Power's Plant Daniel and Savannah Electric's Plant McIntosh.

Throughout his career, Reaves has served in a leadership role for several community organizations: United Way, Junior Achievement, Red Cross, American Chamber of Commerce, Boy Scouts of America and the National Management Association. He also served as chair for the Pascagoula River Audubon Advisory Board.

Reaves obtained his bachelor's degree in mechanical engineering from the University of Alabama at Birmingham.
