**RE: Plant Scherer – NPDES Permit No. GA0035564
Notice of Planned Participation Scherer Unit 3**

Dear Ms. Dickson:

Pursuant to 40 C.F.R. § 423.19(f), Georgia Power Company (the “Company”) submits the following Notice of Planned Participation (“NOPP”) for Plant Scherer Unit 3.

The Plant discharges under NPDES Permit No. GA0035564, currently in the process of renewal. The Company has requested that the next version of the permit include generally applicable effluent limitations for flue gas desulfurization wastewater (“FGDW”) based on 40 C.F.R. § 423.13(g)(1)(i) as well as alternative FGDW limits based on 40 C.F.R. § 423.13(g)(2)(i), for units that will permanently cease coal combustion by December 31, 2028, and based on 40 C.F.R. § 423.13(g)(3)(i), for the Voluntary Incentives Program.

The Company hereby notifies the Georgia Environmental Protection Division (“EPD”) that Plant Scherer Unit 3 intends to permanently cease coal combustion by no later than December 31, 2028 and is eligible for the alternative limits at 40 C.F.R. § 423.13(g)(2)(i).

The Company submits the following information pursuant to 40 C.F.R. § 423.19(f)(2):

The electric generating units intended to achieve the permanent cessation of coal combustion:

Plant Scherer Unit 3.

The expected date that each electric generating unit is projected to achieve permanent cessation of coal combustion:

No later than December 31, 2028.

Whether the expected date represents a retirement or a fuel conversion:

Retirement.

The relevant regulatory body:

The Georgia Public Service Commission (“PSC”).

Whether each retirement or fuel conversion has been approved by a regulatory body:

No decertification request or retirement has been approved by the PSC, but the Company anticipates the 2022 Integrated Resource Planning (“IRP”) proceedings to address decertification of Scherer Unit 3.

Documentation supporting that the electric generating unit will permanently cease the combustion of coal by December 31, 2028:

The Company will provide EPD with the relevant documents from the January 2022 IRP filing with the PSC that further supports the decertification and retirement of Scherer Unit 3.

A timeline to achieve the permanent cessation of coal combustion with interim milestones and the projected dates of completion:

The Company has composed the timeline below with interim milestones. These milestones are necessarily tentative given the amount of time prior to cessation of coal combustion and need for PSC approval, and not all milestones might be necessary to achieve permanent cessation of coal combustion on or before December 31, 2028.

<u>Milestone</u>	<u>Projected Date</u>
Submission of the 2022 IRP to the PSC	January 31, 2022
Final Order on the 2022 IRP from the PSC	August 31, 2022
Submission of the 2025 IRP to the PSC (if necessary)	January 31, 2025
Final Order on the 2025 IRP from the PSC (if necessary)	August 31, 2025
Submission of the 2028 IRP to the PSC (if necessary)	January 31, 2028
Final Order on the 2028 IRP from the PSC (if necessary)	August 31, 2028

The Company understands this NOPP to fully satisfy the requirements of 40 C.F.R. § 423.19(f), and the Company reserves its ability to submit a later determination of a new compliance pathway if circumstances change or the Georgia PSC requires changes to the Company’s compliance strategy for Plant Scherer Unit 3.

If you need additional information or have questions regarding this matter, please contact Dominic Weatherill at 404-506-3348.
