

Admin tool for home page redirect to storm page

Get permissions to access the tool

1. Users can request access here:
<https://coolcompliance.southernco.com/RequestAccess.aspx?ECId=2970>
Or by searching for DarkPages in CoolCompliance.
2. After you login, you should see this screen:

Request Access Wizard - Step 1 of 2

Name: DarkPages **Company:** Georgia Power **Description:** DarkPages production access

For help selecting roles contact Jerry Hart Jr at 404-506-4355; George Hawkins at 404-506-6489; Charles Lightcap at 404-506-2574; Adrian Booth at 404-506-4279; Percy Pollard at 404-506-6970

Step 1
Role Selection

Step 2
Comment

Role Selection View Descriptions

Select the roles to which you require access. If you attempt to select a role and cannot, then you do not meet the requirements for that role. A pop-up message will explain the requirements that you do not meet. A red flag means that you do not meet the role requirements, but you may request an exception. All exceptions must have an expiration date not to exceed six months. If you request a role exception, a pop-up will display with a default expiration date. You may accept the default expiration date shown by clicking the Submit button, or use the calendar icon to select a different date.

Roles that are already checked represent your last approved request. Do NOT uncheck a role unless you no longer need access to the role. Unchecked roles will be revoked.

Storm - Please check both boxes to request access.

☒ StormEnable

☒ StormRevert

3. Check the "StormEnable" and "StormRevert" boxes.
4. After you have submitted your request, you will receive an email confirming your request.
5. Once you have been approved, you will receive an email confirmation.

Change the home page to the storm page for <http://www.georgiapower.com/>

1. Go to the admin tool: <https://darkpages.southernco.com>
2. Log in.
