

## INTRODUCTION

### AP2-DAS LANDFILL

---

The former Plant Arkwright property owned by Georgia Power is located in Bibb County, approximately six miles northwest of Macon, Georgia. Commercial operation of the plant began in 1941 and consisted of four 40-megawatt units that produced approximately 25,000 tons of coal combustion residuals (CCR) annually. The plant was retired in 2002 and decommissioned in 2003. Power is no longer being generated onsite; only a substation remains active on the plant property.

AP2-DAS Landfill was established around 1970 as a disposal area for the plant's CCR material. The footprint of the CCR waste encompasses 9.11 acres. The CCR waste is covered with a non-uniform layer of soil and a mature stand of trees and thick undergrowth vegetation has been established in and around this area. A closure certificate was issued for AP2-DAS Landfill by the Georgia Environmental Protection Division (EPD) on July 30, 2010, under Solid Waste Handling Permit Number 011-0031D(LI).

AP2-DAS Landfill is exempt from the requirements in 40 CFR Part 257 Subpart D - Standards for the Disposal of Coal Combustion Residuals in Landfills and Surface Impoundments in accordance with § 257.50(d), which states that the subpart does not apply to CCR landfills that have ceased receiving CCR prior to October 19, 2015. AP2-DAS Landfill is, however, subject to the requirements of Georgia Solid Waste Management Rule 391-3-4-.10, including the requirement for a solid waste handling permit application to be submitted to EPD. The CCR unit is defined as an Inactive CCR Landfill per Georgia Solid Waste Management Rule 391-3-4-.10.

Georgia Power has plans to remove the CCR from AP2-DAS Landfill. The CCR will be excavated from the AP2-DAS Landfill area and then transported and disposed of in a permitted facility that has been approved to accept CCR or sold to an ash marketer for beneficial reuse. The AP2-DAS Landfill area will be regraded and vegetated after CCR removal.

In addition to general permit requirements, this application includes the following sections:

- Groundwater Monitoring Plan,
- Closure Plan,
- Closure Plan drawings.
- Limited Hydrogeological Assessment Report, and
- Engineering Report.

Since the CCR unit has ceased receiving waste and will not have an operational phase, information pertaining to location restrictions, air criteria, and run-on and run-off management during the removal of CCR is addressed in the updated Closure Plan with supporting information provided in the Engineering Report. Procedures identifying how the CCR, stormwater and contact water will be handled during the removal process are provided in the Closure Plan and on the Closure Plan drawings.

#### **AP2-DAS Landfill Permitting Requirements**

This permit application addresses the permit application requirements of Rules 391-3-4-.10(9)(b) and 391-3-4-.10(9)(c)4. for Inactive CCR landfills. The locations within the application are as indicated in the following table:

**CCR UNIT - SOLID WASTE HANDLING PERMIT APPLICATION FOR AP2-DAS LANDFILL  
RULE 391-3-4-10(9)**

**CCR UNIT FACILITY TYPE: INACTIVE CCR LANDFILL**

Rule No.	Requirement	Application Location	Comments
<b>General Permit Requirements:</b>			
391-3-4-.10(9)(b)1.	A completed form designated by EPD	Part A - Section 2	-
391-3-4-.10(9)(b)2.	Written verification that the site conforms to all local zoning or land use ordinances	Part A - Section 3	-
391-3-4-.10(9)(b)3.	Property boundary survey and legal description	Part A - Section 4	The permit boundary survey and legal description are included in Section 4, and the permit boundary is shown in the Closure Plan drawings.
391-3-4-.10(9)(b)4.	Financial assurance mechanism meeting the criteria in Rule 391-3-4-.13	Part A - Section 5	The FA mechanism will be provided once EPD approves the cost estimate.
391-3-4-.10(9)(b)5.	A qualified professional engineer's certification that all application requirements have been met	Part A - Section 6	-
<b>Inactive CCR Landfill Requirements:</b>			
391-3-4-.10(9)(c)4.	Inactive CCR landfills must meet requirements subparagraphs (9)(c)3.(i)-(iv) of this Rule for an existing CCR landfill.	<i>See the existing CCR landfill requirements below.</i>	-
<b>Existing CCR Landfill Requirements:</b>			
391-3-4-.10(9)(c)3.(i)	Location restriction demonstration requirements in 40 CFR 257.64.	Part B - Section 3	-
391-3-4-.10(9)(c)3.(ii)	Description of how the CCR landfill's operating criteria requirements in 40 CFR 257.80, 40 CFR 257.81, and 40 CFR 257.84 are met.	Part A - Section 8	An updated Closure Plan is included to address CCR removal activities.
391-3-4-.10(9)(c)3.(iii)	Groundwater monitoring plan in accordance with 391-3-4-.10(6). Explanation of how groundwater monitoring and corrective action criteria requirements in 40 CFR 257.90, 40 CFR 257.91, 40 CFR 257.93, 40 CFR 257.94, 40 CFR 257.95, 40 CFR 257.96, 40 CFR 257.97, and 40 CFR 257.98 are met.	Part A - Section 7	-
391-3-4-.10(9)(c)3.(iv)	Explanation of how closure and post-closure care requirements in 40 CFR 257.101, 40 CFR 257.102, 40 CFR 257.103, and 40 CFR 257.104 will be met.	Part A - Section 8	An updated Closure Plan has been provided to address CCR removal. A Post-Closure Plan is not required.

Atlanta, GA 30334-9000

**Re: GA Power – Former Plant Arkwright  
Permit Application – CCR Landfill**

Dear Mr. Cown:

The Georgia Power Former Plant Arkwright - CCR Landfill located near 5001 Arkwright Road, Macon, Georgia complies with local zoning and land use ordinances.

Sincerely,

Robert A.B. Reichert  
Mayor

#### **4. PROFESSIONAL ENGINEER CERTIFICATION**

---

May 2025

Mr. Richard Dunn, Director  
Georgia Environmental Protection Division  
2 Martin Luther King Jr. Drive, Suite 1456  
Atlanta, GA 30334-9000

**Re: Professional Engineer Certification  
Georgia EPD Rule 391-3-4.10(9)(b)5.**

Dear Mr. Dunn:

Stantec Consulting Services Inc. is an engineering firm employing professional engineers in good standing in accordance with State statutes, and the firm has experience in the design and construction of similar facilities. Matthew C Vaughan, P.E., with Stantec Consulting Services Inc. is the Engineer of Record for this permit application. He is registered as a professional engineer in the state of Georgia and has more than 20 years of experience in Engineering.

*"I certify under penalty of law that this document and attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I do hereby certify that the application requirements of the Georgia Environmental Protection Division Solid Waste Rule 391-3-4-.10 for Management of Coal Combustion Residuals have been met."*
