**Re: Request for Closure Extension
Georgia Power Company – Plant Yates AP-2
Carroll and Heard Counties
Permit Number: 038-018D (CCR)
GEOS ID No. 990292**

Dear Mr. Cook:

On April 17, 2019, Georgia Power Company (Georgia Power) provided the Notification of Intent to Initiate Closure (NOI) for Yates AP-2 to the Georgia Environmental Protection Division (EPD). This NOI was placed on Georgia Power's public website in accordance with Solid Waste Management Rule 391-3-4-.10(8). Closure activities for the CCR unit are ongoing; however, additional time to complete all activities in accordance with the facility's Closure Permit and the Georgia Solid Waste Management Rules is necessary.

Solid Waste Management Rule 391-3-4-.10(7) requires closure of CCR units to be conducted in accordance with 40 CFR 257.102. Specifically, regarding closure timeframes, 40 CFR 257.102(f)(1)(ii) includes the requirement that existing and new CCR surface impoundments and any lateral expansion of a CCR surface impoundment must complete closure within five years of commencing closure activities. As anticipated in 40 CFR 257.102(f)(2)(i), extension of closure timeframes may be needed and can be extended upon demonstration that completion of all activities was not feasible within the designated timeframes.

Yates AP-2 is being closed by removal in accordance with the requirements of 40 CFR 257.102(c). Closure construction activities were completed by removing all visible CCR from within the boundaries of the CCR unit. Certification of removal reports, demonstrating completion of removal activities, were submitted to and acknowledged by EPD for AP-2 Amax Cove, AP-2 West, and AP-2 East. Groundwater monitoring at AP-2 is ongoing in accordance with condition No. 16 of CCR Permit 038-018D(CCR). Therefore, in accordance with 40 CFR 257.102(f)(2)(ii), an extension of two years is requested for agency coordination and decontamination approval. This demonstration for extension of closure timeframe will be valid through April 17, 2028, and will be placed in the facility operating record.

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this demonstration and all attached documents, and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

A handwritten signature in black ink, appearing to read "Lauren Petty".
