

2023 Terms & Conditions for the Georgia Power Company Business and Residential Electric Vehicle Charger Rebate Programs

The Rebate Programs:

Georgia Power is offering rebate programs to help business and residential customers cover some of the costs associated with the purchase and installation of electric vehicle (EV) chargers.

Georgia Power customers who install a Level 2 (208/240v) EVSE (charger) may qualify for a rebate for each charger installed. Contingent upon the availability of program funding, rebates are offered for installations completed on or before December 31, 2023.

*****Please Note:** You must complete your rebate submission online at the [Georgia Power EV Rebate Portal](#) within **sixty (60) days after the vehicle charger has been installed.**

Through this process, you will need to provide the following documentation:

1. A copy of the installation invoice clearly showing who installed the charger.
2. The charger invoice clearly showing where the charger was purchased; and,
3. for business customers only, a current W-9 form.

Limited funding is available for this program. Georgia Power reserves the right to require additional documentation and to cancel or modify these rebate programs at any time in its sole discretion.

The Rebates:

Program:	Rebate:	Rebate Available:
Business EVSE (Charger) Rebate	\$500 per unit	1/1/2023 – 12/31/2023
Residential EVSE (Charger) Rebate	\$250 per unit	1/1/2023 – 12/31/2023

Charger Eligibility Restrictions:

- Must be a Level 2 (208/240 volt) EVSE (charger).
- Mobile Connectors including, but not limited to, the Tesla Charger Gen 2 Mobile Connector are **NOT** eligible for the Georgia Power EV Charger Rebate.
- Must have a dedicated (208/240 volt) circuit.
- Must be new (not used, refurbished, rented, etc.) and purchased by the customer.
 - Chargers gifted or won as part of a raffle or giveaway are not eligible for rebates.
 - Chargers purchased from other utilities' marketplaces/online stores are not eligible for rebates.
 - If your charger is self-installed you may still be eligible for a rebate, but you must provide a copy of the first page of the vehicle bill of sale, a photo of the installed charger that shows the installed, and a signed and dated document attesting to self-installation.

- Rebate paid on each charger installed is subject to program funding availability.
- There is no manufacturer, make or model restrictions, as long as the requirements set forth herein are met.
- All city, county, or state government, property owner or homeowner's association, rules, codes and regulations must be complied with during installation of the EV charger. All necessary permits must be obtained prior to installation. Level 2 charging occurs at a higher voltage rate than the Level 1 (120 volt) charger, and as a result, an inspection and permit are likely to be required by the city or county where the business or residence is located. [Participating EV charger installers or](#) other qualified independent electricians can identify what permitting and inspections may be required. Customers are not required to use a participating EV Charger Installer to be eligible for the Business or Residential Electric Vehicle Charger Rebate.

Customer Eligibility Restrictions:

- Must be a Georgia Power customer.
- Customers who purchased EV chargers through the Georgia Power Marketplace and received the **\$250 instant rebate** upon check-out are not eligible to apply for an additional rebate.
- Eligible customers must be the property owner, or have the express permission of the property owner, to install the EVSE (charger).

Business Rebate Only:

- Program open to all business customers regardless of electric service rate.
- Business customers include, but are not limited to: retail, industrial, office buildings, places of worship, mixed use developments, and multi-family residences.
- Third party vendors or business customers engaged in the electric vehicle charging business, and new car dealerships are not eligible for the rebate.
- Business customers can receive a maximum of five (5) Business EVSE (Charger) Rebate (Max Total of \$2500 per account), subject to program funding availability.

Residential Rebate Only:

- Program open to all single-family residential customers regardless of electric service rate.
- Residential customers do not have to be on the Plug-In Electric Vehicle (PEV) Rate in order to be eligible for the rebate.
- Residential Customers can receive a maximum of two (2) Residential EVSE (Charger) Rebate (Max. Total of \$500 per account), contingent upon program funding availability.

All electric vehicle chargers installed under these programs are subject to visual verification by the Georgia Power Corporate Compliance Organization (GPCCO). If your EVSE (charger) installation is selected for a field audit, you will be contacted by a GPCCO representative to schedule an appointment. By signing and submitting the Rebate Request Form the customer agrees to provide a GPCCO representative reasonable access to the installation site during

normal business hours. If the field audit discovers that the EV charger has not been installed, the rebate will not be paid, or if the rebate has already been issued, the customer will be responsible for repayment of the rebate to Georgia Power if the rebate has already been issued.

Georgia Power's liability and responsibility in connection with the Electric Vehicle Charger Rebate Programs, including GPCCO field audits, shall be strictly limited to the making of certain rebate payments for eligible equipment, and Georgia Power does not make, will not provide and specifically disclaims any representations, warranties, covenants or guaranties whatsoever, express or implied, in connection with the electric charger or the Program itself, including, without limitation, those regarding merchantability or fitness. Warranties with respect to the electric vehicle charger are strictly manufacturer's warranties, and customers participating in the program shall not make, nor have the right to make, any claims against Georgia Power relating to any such warranty. Compliance with laws, codes, and regulations are solely the responsibility of the Residential or Business Customer and Georgia Power shall not be liable or responsible for violations of the same. Georgia Power shall in no way be liable or responsible for any equipment installed by, or for any act or omission of, any other entity or individual, including, without limitation, equipment manufacturer, any electrician, technician, or other service provider.

Customers participating in the Electric Vehicle Charger Rebate Programs may be contacted to participate in Georgia Power's data collection on EV charging practices in order to better understand EV drivers' charging practices, improve EV services, and encourage greater EV deployment. For example, Georgia Power is interested in collecting information on how many chargers are installed at workplaces and the number and frequency of EV drivers using workplace chargers. Participation is voluntary and does not affect rebate eligibility. Additional information available on [Georgia Power's Electric Vehicle website](#).

Rebate Submissions:

Submit your Business or Residential Electric Vehicle Charger Rebate request at georgiapower.com/evrebate along with an installation and a charger invoice and a current W9 (if business customer).

Other Related EV Rebates:

Builder Incentive for Electric Vehicle Chargers installed in New Homes: Along with other new home rebate incentives, a \$100 rebate is available for builders who install electric vehicle chargers in new homes, contingent upon program funding availability. Restrictions apply. For more information, visit [Georgia Power's Electric Vehicle website](#).
